- Appendix III. Recommended Incremental Tax Rebate Guidelines – Decision Making Matrix

## **1.0 PREAMBLE TO THE TOWN OF TILLSONBURG COMMUNITY IMPROVEMENT PLAN**

### 1.1 INTRODUCTION

Community improvement planning is commonly used as a tool to provide assistance to municipalities to address challenges related to growth management, accessibility and development. It provides a means of planning and financing development activities that effectively assist in the redevelopment of lands, buildings and infrastructure through the implementation of various financial incentives.

The intent of a Community Improvement Plan (CIP) is to outline, in one document, the possible range of improvement options which may be undertaken to promote and encourage renewal, redevelopment and rehabilitation within the key areas of the Town requiring investment. The Plan is also intended to provide general design direction to complement and assist with the implementation of the financial incentive programs enabled by this CIP.

The Plan is intended to provide a list of suggested incentive programs that Council might draw upon in its decision making to direct funding towards programs deemed as a priority to assist with downtown improvement and attracting investment for significant development projects. As such, the Town is not obligated to implement all of the incentives outlined in this Plan, and may discontinue or reduce funding for the incentives at any time. Further, Town Council reserves the right to determine, at its sole discretion, the implementation schedule of the proposed financial incentives contained in the Plan.

### 1.2 LEGISLATIVE AUTHORITY AND POLICY FRAMEWORK

#### 1.2.1 Municipal Act

Ontario's Municipal Act, 2001 is the principle statute governing municipal organization and the delivery of services in Ontario. The Act came into effect on January 1, 2003, replacing the 1990 Municipal Act. Effective January 1, 2007, the *Municipal Statute Law Amendment Act* introduced significant amendments to the Municipal Act, providing municipalities with greater flexibility to meet community expectations and fulfilling responsibilities.

Section 106 of the Municipal Act prohibits municipalities from directly or indirectly assisting any manufacturing business or other industrial or commercial enterprise through the granting of financial incentives, a practice that is commonly referred to as 'bonusing'. Notwithstanding Section 106, the Act does provide an exception which allows a municipality to offer certain incentives where the said municipality has approved a Community Improvement Plan in accordance with Section 28 of the Planning Act.

#### 1.2.2 Planning Act

The Planning Act empowers the Council of a lower-tier or local municipality to designate Community Improvement Project Areas (CIPAs) and develop CIPs in accordance with the Act. Where a municipality has an approved CIP in place, the Act directs that the municipality may:

- Acquire, hold, clear, grade, otherwise prepare, sell, lease or otherwise dispose of lands;
- Construct, repair, rehabilitate or improve buildings on lands acquired or held by the municipality;

- Make grants or loans to registered owners, assessed owners and tenants of lands or buildings to pay for the whole or part of any cost of rehabilitating such lands or buildings; and
- Enter into agreements with any government authority for conducting studies and for the preparation, implementation and financing of plans and programs.

### 1.2.3 Provincial Policy Statement

The Provincial Policy Statement – 2014 (PPS) came into effect on April 30, 2014 and provides policy direction on matters of provincial interest related to land use planning and development. The PPS establishes the policy foundation for regulating the development and use of land and supports the provincial goal of enhancing the quality of life for the citizens of Ontario. The PPS is issued under Section 3 of the Planning Act, which requires that all decisions affecting land use planning matters “shall be consistent with” policy statements issued under the Act.

The PPS provides high-level policy direction pertinent to community improvement areas, including intensification, redevelopment, mixed land use and heritage preservation. In this regard the PPS generally promotes:

- Land use patterns in settlement areas based on densities and a mix of land uses that use land and resources efficiently, promote energy efficiency and provide a range of uses and opportunities for intensification and redevelopment (Section 1.1.3.2);
- Opportunities for intensification and redevelopment where this can be accommodated taking into account existing building stock or areas, including brownfield sites (Section 1.1.3.3);
- Development standards which facilitate intensification, redevelopment and compact form (Section 1.1.3.4);
- Providing an appropriate range of housing types and densities to meet projected requirements of current and future residents with residential intensification, densities which support active transportation modes including public transit, and redevelopment which facilitates a compact form (Section 1.4.3);
- Planning of streets and spaces which meet the needs of pedestrians, foster social interaction and facilitate community connectivity (Section 1.5.1);
- A land use pattern, density and mix of uses which minimizes vehicle trips and supports transit and active transportation (Section 1.6.7.4);
- Opportunities for economic development, maintaining and enhancing the vitality and viability of the downtown and mainstreets and encouraging a sense of place by conserving features that help define culture (Section 1.7.1);
- Energy conservation and efficiency and improved air quality through compact form and a structure of nodes and corridors, focusing employment and other travel-intensive uses on sites which are well served by transit, improving the mixture of employment and housing to shorten commute journeys, design to maximize energy efficiency and conservation (Section 1.8.1); and,
- Conservation of significant built heritage resources and significant cultural heritage landscapes (Section 2.6.1).

#### 1.2.4 Oxford County Official Plan

##### *Central Area Vision*

Section 8.1.1 of the Oxford County Official Plan outlines the Municipal Planning Strategy for the Town of Tillsonburg, as articulated in Chapter 8 of the Official Plan. The goals articulated in Section 8.1.1 serve as general guidelines for detailed policy development. The Town aims to maintain and promote the downtown as the hub or heartbeat of the town, rich in commercial diversity and amenities which bolster its role as the focal point of the community.

In the future, the Central Area of the Town of Tillsonburg will remain as the most functionally diverse area of the Town and will serve as the primary business, cultural and administrative centre. The commercial core of the Central Area will remain a viable regional retail shopping district capable of meeting the day to day and specialty needs of residents of the Town as well as serving the southern part of Oxford County and portions of Elgin and Norfolk Counties. At the same time the Central Area will increasingly serve as a people place and will have increased day and night activity through the introduction of residential development within and near the Central Area and through better integration of the Central Area with the wider community.

New buildings and spaces will reflect a human scale of development which results in a significantly enhanced pedestrian environment. The heritage resources of the Central Area will be protected through heritage conservation and enhanced through new development which respects nearby heritage buildings.

To support the Town's goal of a vibrant central area, the Town supports the creation of new residential units within commercial and institutional buildings within the Central Area through the development of appropriate zoning standards.

In addition, the Official Plan directs that where new development, expansion, or redevelopment is undertaken, Site Plan Control shall address issues such as parking, signage, lighting, barrier-free design and vegetation, to the effect of ensuring compatibility with adjacent land uses and achieving an overall high quality of development.

##### *Residential Areas*

Official Plan policies in Section 8.2 facilitate a variety of housing type, tenure, cost and location that meets the changing needs of all types of households by providing for a variety and mix of housing throughout the Town.

A strategic aim of the Town is also to promote and facilitate the provision of affordable housing through the co-operative efforts of all levels of government, the private sector and volunteer interest groups through such means as technical assistance, land conveyances, joint ventures, regulatory measures, and incentives.

### *Cultural Heritage Policies*

The Official Plan requires that significant built heritage resources and cultural heritage landscapes that are valued by the community, be conserved. Section 8.3.2.2.5 of the Official Plan recognizes the importance of conserving and enhancing the Town's heritage resources, including buildings, structures, sites and landscape elements having architectural, historical or cultural significance. In this regard the Town:

- Shall maintain the heritage resources which are in its ownership and shall ensure that public improvements are sensitive to the heritage character of the resource. In addition Town Council shall require that essential heritage elements are conserved, incorporated or maintained when any new use or development of such feature is proposed;
- May designate individual buildings or sites in the Central Area under the Ontario Heritage Act;
- May authorize the use of the density bonus provisions or transfer of density provisions of the Planning Act, in accordance with Chapter 10, Implementation Measures, as incentives to the private sector for heritage conservation;
- May administer programs of senior levels of government directed towards heritage conservation and may develop complementary municipal programs to maintain and enhance heritage elements in the Central Area.

The CIP should support these policies in the Official Plan by recognizing existing cultural heritage resources and promoting the preservation and restoration of potentially significant properties within the Community Improvement Project Area.

### *Transportation Policies*

According to Section 8.3.2.2.6, a strategic approach for Transportation is to provide for a safe, convenient and aesthetically pleasing integrated transportation system which will promote cycling and walking in the Central Area while continuing to provide adequate facilities to meet vehicular needs.

The Town also endeavours to support improvements to the transportation system which will increase the use of bicycles and walking in the Town for commuting to work, shopping and other purposes, consistent with efforts to improve air quality, energy efficiency and non-auto modes of transportation.

### *Community Improvement Policies*

Section 10.4 of the County Official Plan includes policies intended to direct County and Area Municipal actions regarding upgrading, redeveloping and rehabilitating the physical environment of existing, older residential neighbourhoods, ancillary open space and recreational areas, commercial centres and industrial areas. The policies are intended to guide both private and public community improvement activities within designated community improvement project areas and are premised on a number of goals, including:

- The upgrade and improvement of municipal hard services, social and recreational facilities and public utilities;
- The preservation and upgrade of older residential neighbourhoods and settlements;
- The strengthening of existing central areas;
- The improvement of existing industrial areas by encouraging further development and redevelopment;

- Consideration of participation in senior government funding assistance programs; and
- Encouraging the coordination of municipal, private and community organizations in promoting community improvement efforts.

In addition to a number of general criteria for the designation of community improvement areas, the Official Plan provides additional guidance for identifying residential, commercial and industrial improvement areas based on, among other matters, the structural integrity of building stock, lack of community facilities and, in the case of commercial improvement districts, those areas that are experiencing high vacancy rates, inadequate off-street parking and poor traffic circulation.

### *Contaminated Sites*

Section 10.4.6 of the Official Plan provides that where a redevelopment proposal demonstrates a change in land use on a site where contaminants may be present, the County and/or Town will require that environmental site assessment and site cleanup be undertaken as required in accordance with Section 3.3.3.2. The County and/or Town may:

- Provide grants and/or loans to owners and tenants of properties to assist in clean up and redevelopment of the lands or buildings to conform with the Community Improvement Plan;
- Cancel or not increase the municipal portion of the property tax on sites during the rehabilitation period; and
- Cancel or not increase the education portion of the property tax on sites during the rehabilitation period with the approval of the Ministry of Finance.

### 1.2.5 Central Area Design Study

The Central Area Design Study was completed in 2012 by Brook McIlroy, Town staff, and County Planning Staff. It was approved by Council in September 2012. The main objectives of the design study are:

- Elevate and promote the cultural heritage and built form of Broadway Street;
- Create an urban design vision that highlights the diverse character of Central Area of Tillsonburg, while prioritizing inherently sustainable approaches;
- Identify the unique character areas within the Central Area and prepare specific visions and urban design guidelines for each;
- Improve connection within the Central Area as well as between the downtown and the surrounding community;
- Transform Broadway Street into a weekday, evening, and weekend destination with a mix of uses and activities.

Town staff have identified that the successful implementation of the study will be tied to incentives and CIP programs that will encourage property owners and developers to use the recommendations of the Design Study into their projects.

To date, through a Façade Improvement Program Grant, the Town and Tillsonburg BIA has partnered with numerous businesses and property owners to improve the façade of buildings at prominent locations in the downtown.

### 1.3 PROCESS

In August 2015, Town Staff together with Planning staff initiated the review of the three existing Community Improvement Plans (Dereham Forge, Van Norman, Tillsonburg Gateway CIPs) and determined it would be advantageous to develop a new comprehensive Town-wide CIP that would identify several financial incentive programs to assist with renewal in the Downtown areas of the Town, vacant industrial sites, and brownfield projects within the Town.

The Town CIP has been prepared in accordance with the provisions of Section 28 of the Planning Act. The draft Community Improvement Plan (CIP) was circulated to the prescribed public bodies as required by Section 17 of the Act and a final draft was prepared, reflecting those comments received through the noted circulation, where applicable.

## **2.0 TOWN OF TILLSONBURG COMMUNITY IMPROVEMENT PLAN**

### 2.1 COMMUNITY IMPROVEMENT PROJECT AREA (CIPA)

The CIP applies to all lands within the Town of Tillsonburg, as identified on Appendix I, respectively.

### 2.2 PURPOSE

The purpose of the Town CIP is to promote development and redevelopment of lands within the Town's Central Area (areas designated as Central Business District & Entrepreneurial District as depicted on Schedule T-1 of the Oxford County Official Plan), as well as promote brownfield redevelopment opportunities and redevelopment of vacant employment buildings throughout the Town.

### 2.3 GOALS AND OBJECTIVES

The fundamental goal of the CIP is to promote development in the Central Areas and employment lands by encouraging property and business owners to improve the visual quality and function of buildings with a view to enhancing the long-term viability and economic stability of the Town.

Generally, the objectives of the CIP are to:

- facilitate the ongoing viability, vitality and revitalization of the Central Area of the Town;
- encourage long-term investment that improves the economic climate of the Town;
- outline a set of key design principles to form a basis for improvement efforts;
- improve the physical and visual quality of the existing building inventory;
- conserve and strengthen traditional heritage features within designated community improvement areas by encouraging improvement that is 'sympathetic' to the history of the area and encouraging reuse;
- promote a visually attractive, safe and clean public realm that is accommodating and accessible to all users;
- stimulate private investment activity and private property maintenance; and
- increase sense of community participation and civic pride.

## 2.4 MONITORING AND CHANGES TO THE CIP

The Town supports actions that may be undertaken to promote revitalization and renewal, either through the use of one initiative or a combination of complementing incentives. However, the Town is not obligated to implement the incentive programs as outlined in this Plan and may choose to discontinue any incentive associated with the CIP at the sole discretion of Town Council.

Where Town Council resolves to discontinue a program or incentive, any approved projects underway at the time will generally be honoured until the development is concluded.

## 2.5 IMPLEMENTATION

Council shall prepare and adopt a set of guidelines and procedures to establish specifics on how the various elements of the Plan will be implemented. The guidelines will address such issues as the application and approval procedures, agreement requirements, and how decisions will be made regarding which projects receive approval.

At the time Council establishes its annual budget, Council will determine the maximum contribution to be made available to various programs under the CIP for the current year.

The Town will conduct periodic reviews of the programs being implemented under the CIP to determine their effectiveness and to determine whether funding levels should be increased or decreased, or whether modifications to the program should be made. Any changes to the financial incentives programs will require pre-consultation with Ministry of Municipal Affairs and Housing (MMAH).

## **3.0 FINANCIAL INCENTIVE PROGRAMS**

This section outlines the financial incentive programs that may be implemented by the Town through the CIP. These incentive programs are designed to stimulate and assist new development, redevelopment and rehabilitation of vacant, underutilized or deteriorated properties in the designated areas of the Town and may be funded by way of both grants and loans.

Annual limits on expenditures/funds to be made available for the financial incentive programs in this Plan will be determined by Town Council. Detailed program implementation policies will also be established by the Town for the programs identified in this Plan.

The following general implementation and eligibility criteria shall apply to all financial incentive programs offered through this plan:

- Applications for funding shall generally be submitted prior to the issuance of a building permit. Grants will only be paid out after the applicable improvements have been completed and inspected by the Town and all outstanding work orders have been satisfied;

- All taxes and other Municipal financial obligations for a property must be paid in full before any grant or loan is paid to an eligible property owner. The Town reserves the right to request an independent audit of the applicants accounts, at the expense of the applicant;
- If a property is under an assessment appeal, the grant or loan application will be held in abeyance until the appeal is resolved;
- Any program applicant may be required to provide a business plan and detailed cost estimates for the proposed works as part of the application;
- Participating property owners may be required to enter into an agreement with the Town specifying such items as the level of loan or grant available and the terms and conditions associated with the loan or grant, including the circumstances whereby an owner would be obligated to repay the Town for any loans or grants received;
- If a building erected or improved with a program grant or loan is demolished prior to the expiry of the grant or loan period, or the property is not maintained in a satisfactory state of repair consistent with Town By-laws, the grant or loan is forfeited and will be recovered by the Town;
- To be eligible for any of the funding programs, the proposed work shall conform with the goals of this CIP, all Town policies, standards and procedures including the Town's Property Standards By-law, Town's Sign By-law, Town Zoning By-law, site plan guidelines and the Central Area Design Study as appropriate, and will be subject to review and the issuance of all required planning and development approvals and building permits;
- The total cost of all grants and loans provided by the Town and County combined may not exceed the total cost of rehabilitation;
- All applications for loan assistance under this CIP will be considered on a 'first come, first served' basis and will be restricted to the limit of budgeted funding. Should the number of eligible projects exceed the annual funding available, those eligible projects will be held in queue until and if funding becomes available the following year;
- Any applicant may be required to provide detailed quotes and/or cost estimates for services and materials subject to an application;
- The Town may, at any time, discontinue or cancel funding of a program.
- Unused funds from a particular program may to be transferred to reserve for CIP use in future years at the discretion of Town Council.

The following is a brief description of each program that may be offered at the discretion of Town Council within all or part of the Community Improvement Project Area. A summary of the program descriptions appear in Appendix II of this Plan.

### 3.1 Tax INCREMENT EQUIVALENT GRANT BACK PROGRAM

This program is intended to provide a grant to owners of lands and buildings who undertake improvements or redevelopment that result in an increased property assessment. The amount of the grant provided will depend on the amount of the municipal portion of property taxes that has increased as a result of the improvements. The increase in realty tax represents the annual municipal realty tax in each year following improvement or redevelopment of lands and buildings over and above municipal realty tax prior to improvement or redevelopment of the lands in question. All commercial and residential properties located in the Central Area are eligible for this program. Commercial areas outside of the Central Area and industrial properties may also be eligible, where appropriate.

The increase in taxes, or tax increment, is calculated by subtracting the municipal portion of property taxes before reassessment from the municipal portion of property taxes after reassessment. The Town may provide any proportion of the increment for any length of time that Council deems appropriate, to a maximum of 10 years. The tax increment does not include any increase/decrease in municipal taxes due to a general tax rate increase/decrease, or projects that result in a tax class change without an increase in assessment due to redevelopment.

### 3.2 FAÇADE IMPROVEMENT GRANT

This program is intended to provide a loan or grant to encourage exterior renovations which are in keeping with the desired aesthetic effect and historical/heritage characteristics of buildings within the designated areas. Eligible improvements may consist of external repairs to façades, including signage, lighting, entrances and display windows. Interior work will not be eligible. All commercial and residential properties in the Central Area shall be eligible and commercial properties outside of the Central Area may be eligible at prominent locations.

### 3.3 ALLEYWAY FAÇADE IMPROVEMENT GRANT

This Program is intended to provide loans to property owners in the Central Area to assist with non-street front façade improvements to be consistent with the Central Area Design Study and to improve the appearance of rear alleys and other visible servicing corridors. All commercial and residential properties in the Central Area shall be eligible.

For the purposes of this program, a non-street front facade shall mean a portion of a non-street front building that is visible from an adjacent street or alleyway. All works shall be pre-approved and generally be in keeping with the Central Area Design Study.

### 3.4 ACCESSIBILITY RENOVATION GRANT

This program is intended to provide a grant to improve accessibility to and of existing commercial buildings and properties through the renovation of building entrances, upgrading of doors, installation of power assist door operators, installation of ramps, elevating devices, and accessibility washrooms for the public.

This grant is intended to provide funds to assist owners and tenants of existing commercial buildings, particularly older buildings in the Central Area, with accessibility improvements to improve the accessibility of commercial spaces in the Town.

### 3.5 BUILDING PERMIT FEE GRANT PROGRAM

This program is intended to provide a grant equivalent to the fees paid for Building Permits. The program is meant to stimulate and encourage development and property improvements. All commercial properties located in the Central Area shall be eligible, as well as all industrial properties throughout the Town.

### 3.6 ARCHITECTURAL DESIGN GRANT PROGRAM

This program is intended to provide a grant to owners of lands and buildings in the Central Area who wish to hire a professional such as an architect (for preparing designs, estimates, etc.), an engineer (for structural analysis) or accredited designer (landscape, interior, lighting or graphics/signage) to develop a project concept for other programs offered under this CIP. Design Grants may be applied for prior to the submission of an application for such applicable program. All design work shall generally be in keeping with the Central Area Design Study to be eligible for funding through this program. All commercial properties in the Central Area shall be eligible.

### 3.7 LEGAL AND REGISTRATION COSTS

In order to provide additional motivation for those landowners assessing the CIP programs, the Town may assume a portion of the legal costs and costs associated with registration of agreements for all of the above listed programs.

### 3.8 BROWNFIELD REDEVELOPMENT INCENTIVE PROGRAM

This program is intended to stimulate private sector investment in the reuse and redevelopment of brownfield sites and partially offset the costs associated with the site assessment and remediation.

Incentives offered by the Town could include a grant equivalent to 50% of the cost of a Phase II Environmental Site Assessment, designated substances and hazardous materials survey, remedial work plan or risk assessment. A maximum grant would be determined by Town Council per environmental study and per property.

### 3.9 COUNTY TAX GRANT BACK INCENTIVE PROGRAM

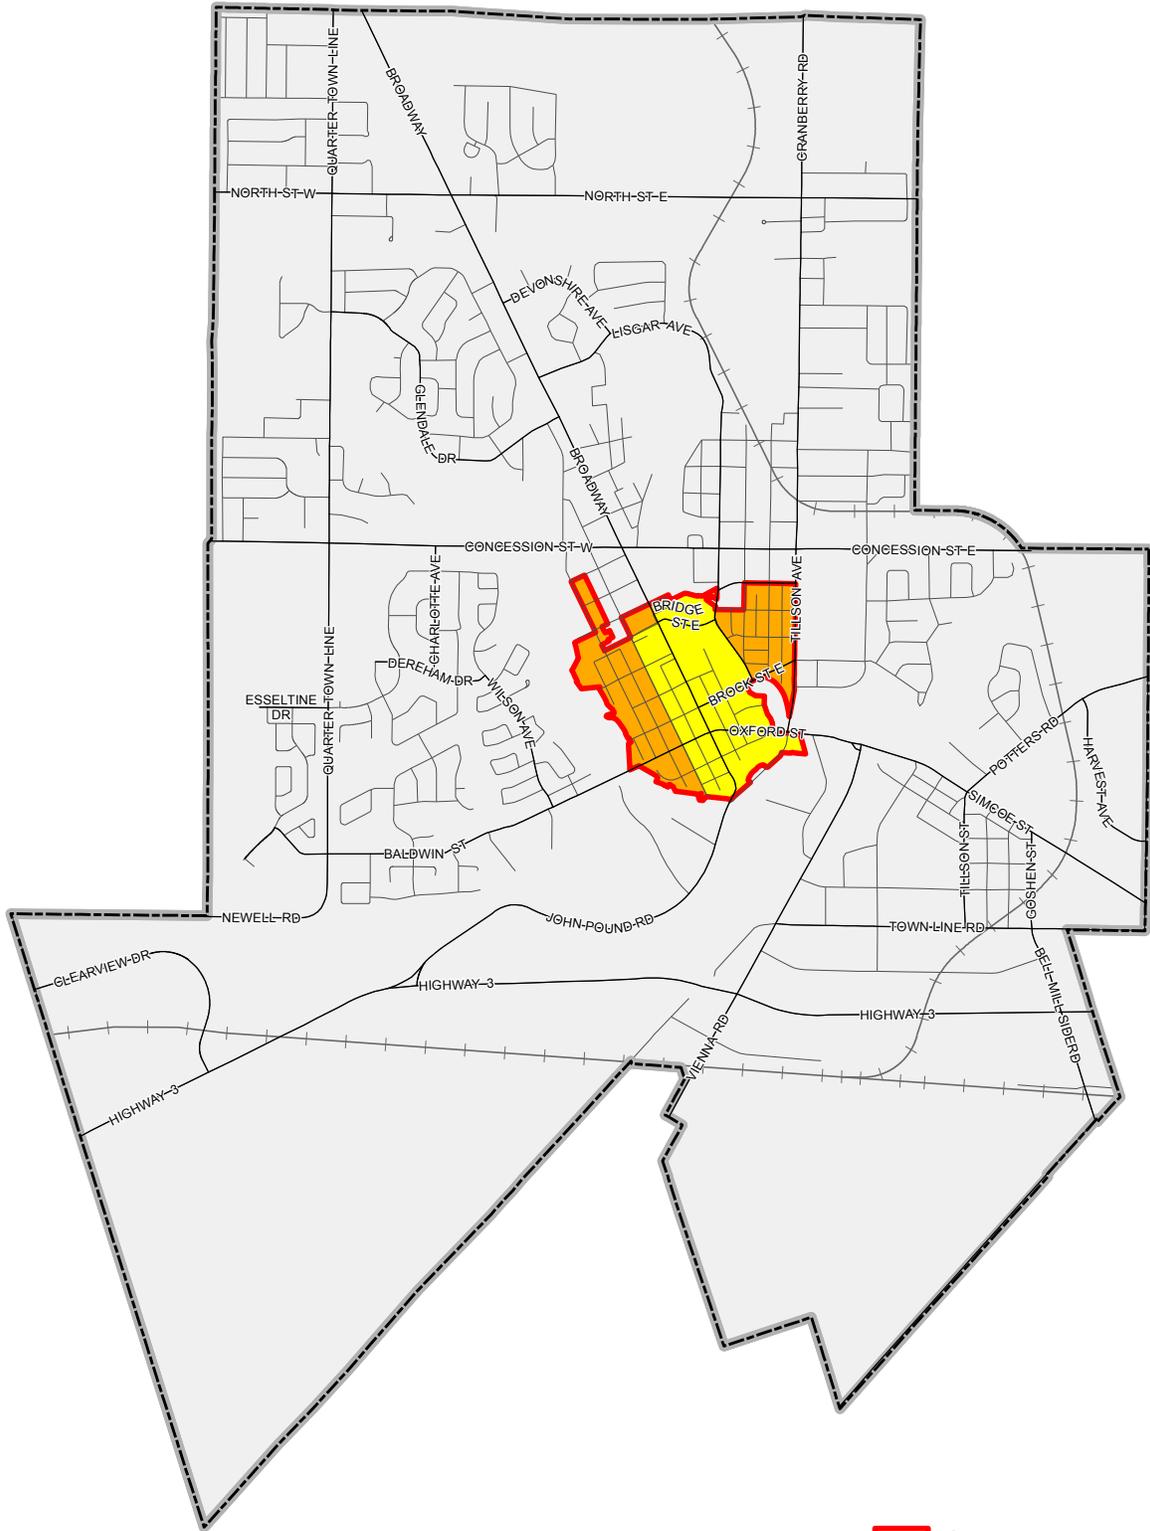

The County has also adopted a Community Improvement Plan that applies to those lands within the County of Oxford that are subject to a local municipal downtown, central area, or village core-oriented community improvement plan. All lands within the Central Area of the Town of Tillsonburg, as identified on Appendix I, have been designated by County Council, by by-law, as a Community Improvement Project Area (CIPA) for the purpose of administrating the CCIP.

Similar to the tax incentive program offered through the Town CIP, the County CIP provides a tax grant back to owners of commercial, industrial or institutional properties and buildings who undertake improvements or redevelopment that result in an increased property assessment.

Where a property is eligible for a tax grant back in accordance with the eligibility criteria as contained in the Town CIP and is located in the Central Area, as defined in the County CIP, the subject property may be eligible to receive a grant back for the increased County portion of taxes that would result in the proposed

redevelopment or improvement. As the County CIP is intended to complement and enhance the incentives offered through the Town CIP, this duplication of financial assistance is acknowledged and will be permitted.

**SUMMARY OF COMMUNITY IMPROVEMENT INITIATIVES**

PROGRAM	ELIGIBILITY CRITERIA
<p><b>Facade Improvement Program</b></p>	<p>Interest free loan or grant for exterior renovations of buildings within the Central Area. Eligible improvements may consist of external repairs to facades, including signage, lighting, entrances and display windows. Interior renovations will not be eligible.</p> <ul style="list-style-type: none"> <li>• 50/50 matching funds</li> <li>• Maximum of \$10,000 per façade</li> <li>• Commercial properties in the Central Area are eligible.</li> <li>• Other commercial properties outside of the Central Area may be eligible at prominent locations. These projects will not be eligible for the matching BIA funds.</li> <li>• Project shall conform with the design principles contained within the Town's Central Area Design Study</li> <li>• Projects that meet energy conservation and efficiency goals shall be given a higher score</li> </ul>
<p><b>Alleyway Façade Improvement Program</b></p>	<p>Interest free loan or grant for alleyway building facade improvements and works to comply with the Central Area Design Study, for properties in the Central Area.</p> <ul style="list-style-type: none"> <li>• 50/50 matching funds</li> <li>• Maximum of \$10,000 per project</li> <li>• Commercial properties in the Central Area are eligible.</li> <li>• Projects that meet energy conservation and efficiency goals shall be given a higher score</li> </ul>
<p><b>Accessibility Renovation Grant</b></p>	<p>This grant, of up to \$3000 in 50/50 matching funds is intended to provide funds to assist owners and tenants of existing commercial buildings, particularly older buildings in the Central Area, with accessibility improvements to improve the accessibility of the Central Area and commercial buildings throughout the Town.</p> <p>Grant can be used for the following types of projects:</p> <ul style="list-style-type: none"> <li>• Power assist door operators</li> <li>• Renovation of building entrances</li> <li>• Upgrading of doors</li> <li>• Installation of ramps</li> <li>• Installation of elevating devices</li> <li>• Renovations to create accessible washrooms</li> </ul>

PROGRAM	ELIGIBILITY CRITERIA
<p><b>Tax Increment Equivalent Grant Back Program</b></p>	<p>Grant to rebate increases in Town property taxes resulting from improvements or redevelopment of lands and buildings, for properties in the CIP area. Projects must meet the eligibility criteria of:</p> <ul style="list-style-type: none"> <li>▪ an increase in the assessed value of the property;</li> <li>▪ Supporting Town objectives of increased residential density, retail, business services and industrial diversity, etc., as contained in the Town's strategic plans;</li> <li>▪ Conform to the principles of the Town's Central Area Design Study (where applicable);</li> <li>• Additional criteria of having front of building comprised of 75% glass, brick or stone and preference given to projects that use the heritage yellow brick evidenced throughout the downtown (where applicable).</li> <li>• Projects that meet energy conservation and efficiency goals shall be given a higher score.</li> <li>▪ Projects that meet water conservation and re-use goals shall also be given a higher score.</li> </ul> <p><b>Commercial</b></p> <p>Phase-in Schedule</p> <ul style="list-style-type: none"> <li>▪ General renovations/rehabilitations – Rebate of 100% of increased taxes in year 1, 80% in year 2, 60% in year 3, 40% in year 4 and 20% in year five with full taxes being payable in year 6.</li> <li>▪ Projects that improve the overall attractiveness of the streetscape/community and provide attention to detail and a high level of design – 50% rebate of the increased taxes for the first six years, 40% of increased taxes in year 7, 30% in year 8, 20% in year 9, 10% in year 10 and with full taxes being payable in year 11</li> <li>▪ Projects that are of strategic interest to the community and provide exemplary attention to detail and a high level of design – 100% rebate of the increased taxes in the first six years, 80% in year 7, 60% in year 8, 40% in year 9 and 20% in year 10 with full taxes being payable in year 11</li> </ul> <p><b>Industrial Areas</b></p> <ul style="list-style-type: none"> <li>▪ General renovations/rehabilitations – Rebate of 100% of increased taxes in year 1, 80% in year 2, 60% in year 3, 40% in year 4 and 20% in year five with full taxes being payable in year 6.</li> <li>▪ Projects that improve the overall competitiveness of Tillsonburg's economic base while provide a high level of design – 50% rebate of the increased taxes for the first six years, 40% of increased taxes in year 7, 30% in year 8, 20% in year 9, 10% in year 10 and with full taxes being payable in year 11</li> <li>▪ Projects that are of strategic interest to the community and provide a high level of design – 100% rebate of the increased taxes in the first six years, 80% in year 7, 60% in year 8, 40% in year 9 and 20% in year 10 with full taxes being payable in year 11</li> </ul>

PROGRAM	ELIGIBILITY CRITERIA
<p><b>Grant in Lieu of Permit Fees Program</b></p>	<p>Grant to rebate the cost of fees for Building Permits for commercial and industrial properties in the CIP area. Commercial Properties outside of the Central Area are not eligible for building permit grants.</p> <p><b>Industrial - Small</b></p> <ul style="list-style-type: none"> <li>• Minimum project value of \$150,000 and maximum project value of \$500,000</li> <li>• Grant of 100% of the applicable building permit fees offered as a rebate once the project is completed</li> </ul> <p><b>Industrial – Large</b> (Project value of \$500,000 or more)</p> <ul style="list-style-type: none"> <li>• Grant of 50% of the applicable building permit fees offered as a rebate once the project is completed</li> </ul> <p><b>Commercial (Central Area)</b></p> <p>Minimum project value of \$150,000 Grant of the applicable building permit fee offered as a rebate once the project is complete as follows:</p> <ul style="list-style-type: none"> <li>▪ 25% Rebate – General renovations/rehabilitations</li> <li>▪ 50% Rebate – Projects that will improve the overall attractiveness of the streetscape and downtown;</li> <li>▪ 75% Rebate – Projects that meet above criteria and provide exemplary attention to detail and a high level of design.</li> </ul>
<p><b>Architectural Design Grant Back Program</b></p>	<p>Grant to offset cost of retaining professionals to provide acceptable design(s), in accordance with the Central Area Design Study for eligible properties in the Central Area.</p> <ul style="list-style-type: none"> <li>• 50/50 matching funds</li> <li>• Maximum of \$2,500 per project</li> <li>• Commercial properties in the Central Area are eligible.</li> </ul>
<p><b>Brownfield Redevelopment Incentive Program</b></p>	<p>Grant to cover up to 50% of the cost of a Phase II Environmental Site Assessment, designated substances and hazardous materials survey, remedial work plan or risk assessment.</p> <ul style="list-style-type: none"> <li>• 50/50 matching funds</li> <li>• Maximum of \$5,000 per project</li> <li>• Applicant must provide a copy of the ESA to the Town for their records</li> </ul>
<p><b>Legal and Registration Costs</b></p>	<p>Grant to reimburse legal costs and costs associated with the registration of agreements associated with the above programs.</p> <ul style="list-style-type: none"> <li>• This may take the form of Town staff registering applicable agreements on title, or a grant to a maximum of \$200 to reimburse legal costs of having a solicitor register the applicable agreements on title.</li> </ul>
