No Records _____

With regard to your inquiry respecting compliance with the building regulations in force at the time of construction, our records indicate the following:

Building(s) presently under construction. Construction to date is in compliance up to the _____ stage of construction.

To the best of our knowledge the building is in compliance with the applicable regulations relating to the above noted permits.

Unable to determine compliance due to lack of information on file.

Sanitary sewers service property.

Storm sewers service property.

The storm sewer is located in the street.

Sanitary sewers in the street (connection costs may apply.)

NOTE: The information contained on this form is based upon building permits applied for by former owners or the subject property. If a building permit was not bought or work was performed without a final inspection this department will not have any information regarding this matter. You must satisfy yourself that the work performed on the property was pursuant to a building permit. This reply does not indicate that an existing building or its use conform with the requirements of applicable By-laws, Acts or Regulations. Please satisfy yourself concerning these matters. If additional information is required, please contact the Building the Building Services Department
