

# Let's Talk Bridge Street!

## What could Bridge Street look like in the future? How could the street be improved?

The Bridge Street Re-Imagining Task Force is working with consultants from SHIFT Landscape Architecture to develop a conceptual **Streetscape Plan** for the Bridge Street Right-of-Way and adjacent municipally owned properties.

Tillsonburg residents are invited to participate in the process by sharing their potential long-term vision for the **section of Bridge Street from Kinsmen Bridge at Rolph Street to Lisgar Avenue**, to help reimagine future ways that Bridge Street's streetscape can be enhanced while ensuring a safe and leisurely pedestrian and traffic flow.

### About the Task Force

The Bridge Street Re-Imagining Task Force consists of members from area businesses, community partners, property owners and Town of Tillsonburg staff. The Task Force is a community-based committee (not a Committee of Council) that has been tasked with reimagining Bridge Street's streetscape and adjacent municipally owned properties. The Task Force is not tasked with any private developments on Bridge Street.
